

Additional information

This document contains “soft” information, so not from formal sources like AIP. The first part originates from Lukas Benedikt (LB) from Slovakia. The second part is correspondence between the Euroglide organisation and several airfields/aeroclubs along the Euroglide track.

Outlanding

Czech republic and Slovakia is OK for flying. Generally, outlanding possibilities are similar to south Germany, for example, the Czech and Slovak republic have big fields, not small private fields, no fences, less or no cows, contrary to Poland. Watch out for power lines.

In the mountains, be carefull and you have to glide down to the valley, where a landable field can be found. Mountains here are not like the Alps, less rock and mostly grass on the top. There is no list of outlanding places, but there are many former agriculture strips, which are very popular for outlanding. They are usually paved and 400 to 600m long.

Crossing clearances

Clearance for TMAs should be no problem in general. Only Bratislava CTR will be closed for you, too much traffic.

Malacky

This is MTMA, operating during week. On weekends, it is not active and usually, they overtake to Stefanik (Bratislava) approach. But also on weekdays, it is standard procedure to call Malacky Tower and they give you clearance to pass through. The traffic is low on this airfield. They communicate in English and all controllers in the Czech and Slovak republic do. Approach is not used. The frequencies are the same as Tower. Use Tower only.

Piestany

Not much commercial traffic. Aeroclub not very active. No tow plane available. Instead of Piestany, use Trencin.

Zilina

Handles one! commercial flight per day and a few GA flights. Aeroclub not very active. You can get a tow in Zilina.

LZ R20

If it is activated, contact Bratislava Info on 124.3. They are very helpful and ask info to get a permission to cross for you, from military. They will grant it, if there are no actual MIGs in the area. If they deny it, fly north and use the southern part of TMA Zilina to cross to Martin valley. In that case contact Zilina Tower 124,150.

Recommended airfields

Recommend to land on fields with active aeroclubs. You will get a tow the next morning. Holic, Senica, Trnava, Trencin, Dubnica, Nitra (restaurant, camp, direct on the airfield), Partizanske-Male Bielice (restaurant, camp, thermal baths direct on the airfield), Prievidza (excellent restaurant direct on the airfield, camp), Martin, Ruzomberok. No noise limitations to self launchers whatever. Less recommended: Zilina and Piestany.

Airfields not recommended

Landing is not possible on big Airfields with commercial/military traffic. You will likely not get a clearance to land, except in case of emergency ofcourse.

Poprad Tatry (SK), Bratislava (SK), Malacky (SK), Sliac (SK), Bechyne (CZ), Brno Turany (CZ), Caslav (CZ), Ceske Budejovice (CZ), Karlovy Vary (CZ), Kbely (CZ), Namest (CZ), Ostrava Mosnov (CZ), Pardubice (CZ), Plzen (CZ), Prague Ruzyně (CZ), Prerov Mil (CZ), Vodochody (CZ).

Airfields

We have sent emails to several airfields in Poland, Slovakia and the Czech Republic
Here are the replies (translations by "google translate")

Germany

Pasewalk	Winch available (single seaters approx 400m) Ultralight tow plane available (MTOW glider 720 Kg) Tents allowed. Clubhouse after permission from chairman. No activities planned during Euroglide Cell numbers tow pilots TO BE ISSUED

Mikulovice Jeseník LKMI Aeroklub Jeseník ing.Vlasta Lasovská Aeroklub Jeseník Chairman Tel:+420 604905903 info@aeroklubjesenik.cz www.aeroklubjesenik.cz	Hello, thank you for your contact me. Our aeroclub will be closed for take off and landing from Thursday 21.6 to Sunday 24.6.2012 (notam) because of Model international competition. Other days it is possible to use our airport without any problems, we do not take any charges for landing/take off, we can provide you our Z-226 Trener for tow of the glider (80.-CZK/1 minute) or winch start (80.-CZK/take off). Accommodation: rooms with bathroom 270.- CZK/person/night, without bathroom 170.-CZK/person/night (bathroom in ground floor), camp 70.-CZK/person/night, parking cars or trailers outside hangar - free, parking in hangar 80.-CZK/night. If you will have some interest, you can contact me. We wish you a lot of succes and best regards ing.Vlasta Lasovská
Kyjov LKKY	Dear gentlemen, responding to your questions. #1 yes tow plane is available, cost is 3 euro per minute, #2 accommodation is possible in near located pension (3 km) or directly in airport (in airport with limited comfort sleeping bag recommended, capacity only 10 persons) # contact person Jiri Vavrina +420 7750877035; email: jiri_vavrina@yahoo.com Best regards Pavel Grufik
Kunovice LKKU http://lkku.cz Contacts: Matej Podhorsky matej.podhorsky@gmail.com +420605185384 Tomas Kralik tomaskralik@klikni.cz - inner organization	Greetings! I got an information from Tomas Kralik about your message and about Euroglide 2012. We talked together and we want to help you. We do gliding quite a lot, so we would be happy to welcome colleagues. I'll be a contact person for you. If you are interested in Kunovice Airport (LKKU), please let me know. Our bar (OK-BAR) and accomodation (7 small bungalows and 6 habitable containers): http://lkku.cz/aeroklub/ok-bar Best Regards, Matej Podhorsky
Frydlant LKFR Contact mr. Foldyna on his cell phone number: +420 777 000 494,	Dear Anton Poortman, We, in aeroclub Frydlant n.O., are pleased, that you are counting with our airfield to awesome gliding race like Euroglide. In the period of 18th of June to 30th of June we have no planned activities in our aeroclub, of course, without ordinary gliding and flying days. To your answers: Yes, it is possible to start from our airfield with air tow or

	<p>winch, but I recommend air tow, because of local specifics. Thermic in mountains appears earlier than in the valley, where is the airport situated. For air tow in the working days (Monday - Friday) pilots have to arrange air tow with our tow pilots in the evening (for an air tow in the next day) or few hours before the planned start in the morning.</p> <p>Yes, it is possible to stay overnight, of course in the tent, or even in the room. Glider pilots also could use our showers, asw. Rooms and showers are for small fee per person and night. Briefing room with PC and internet is also ready to use.</p> <p>For communication (air tows, overnight sleeping) could pilots contact mr. Foldyna on his cell phone number: +420 777 000 494, (info@akfrydlant.cz), he is on the airfield all day, he could speak English, not fluently, but basic glider English isn't problem :) If pilots will have any language troubles, they could contact me on the +420 775 988 680. But I'm on the airfield unfortunately only on the weekends.</p> <p>I wish you, and all glider pilots good luck and only +5m/s thermals!</p> <p>Jiri Pělucha head of the Glider section jiripelucha@gmail.com</p>
<p>Breclav LKBA Aeroclub Breclav</p> <p>Vaclav Hruza, head of air operations, Aeroclub Breclav cellphone +420 724 623 450 www.aeroklubbreclav.cz</p>	<p>Hello Anton, thank you for implementation of our airfield to your gliding competition. We are ready to help you and competitors in our club. There is possibility for accomodation (our clubhouse) and aerotows (we have WT9 Dynamic). We do not plan any activities on airfield (except gliding, of course :) at this time. Do not hesitate to contact me in case of any questions.</p> <p>Best regards Vaclav Hruza</p>
